

# Suctionmill

Suctionmill from Niedernhuber are used for crushing slag, glass, masonry and stones.

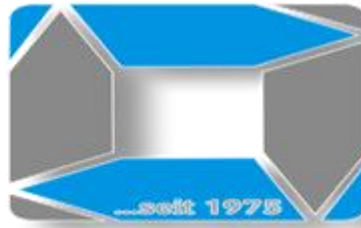

Thanks to their extremely abrasion-resistant housing, these mills have a very long service life.

The suction volume corresponds to  $75\text{m}^3 / \text{min}$  at a pressure of 0.9bar.

The mill can be delivered in a tripod version for the stationary and with a chassis for mobile use

Industrial cleaning or waste recycling companies will find the right shredder in this mill.

## Advantages at a glance
